

Good Morning Sun

by Philip Siddons

for Oliver Keeves

Right before sleepy moon
Went for a nap
Yellow sun smiled and said
I've just done that!

Good morning hand

And good morning foot

Good morning fishie

And good morning book.

Good morning star

And good morning lemon

Yellow faced caterpillar

His name is Kevin.

Hi there green seahorse

And your friend green lime

I'll take blue elephants

Or stars anytime.

Good day bright butterfly

White rabbit too

Ring toy and purple star

Palm trees – there's two.

Good morning ceiling sun

I'll call you One

This one is ceiling sun

Two - it's more fun.

Nanna and Poppy

You both should
come near

Cause Grammie & George

And Grandpa are here.

There is my daddy and mommy
They're mine

Little red tree house
Is still in mom's mind.

Good morning God Who makes
Seas, land and trees

Good morning family

And good morning me.
